

## Breakglass Smart Protective Cover

The innovative smart protector cover was designed in the UK. Its original intention is to reduce the misuse and abuse of alarm call point devices. The product is used in places like Malls, Hotels, Metro Stations and Apartments where there are high flow of people traffic which has a high likelihood of vandalism or nuisance.

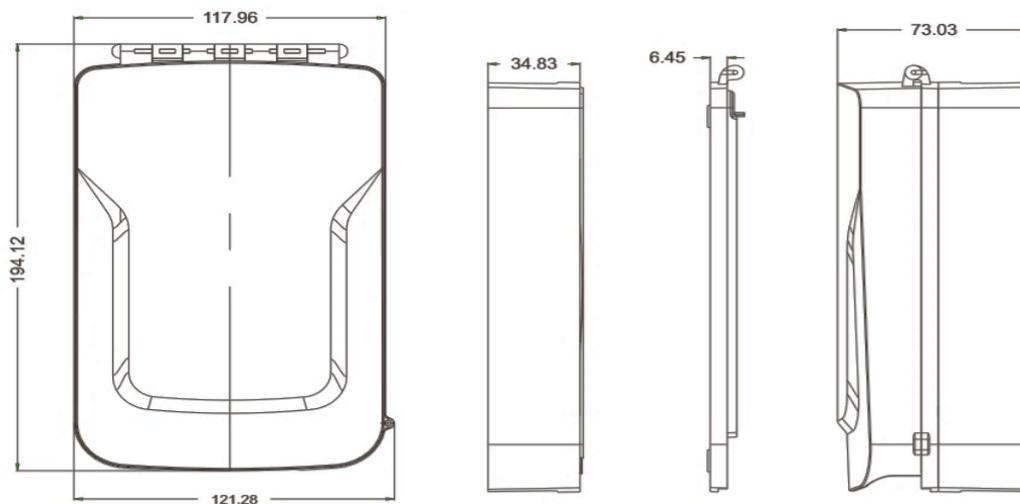

The smart protector product is made of transparent polycarbonate material. IP rating: IP53  
It's Durable, and easy to install.

**Model: SP-WS**

Comes with 2 coloured covers (red & Green)
